PROFILE INFO

I am a versatile web developer with extensive experience in the PHP framework Laravel, coupled with Vue.js and REST API integration. I have successfully developed a range of web solutions, from creating captivating HTML/CSS/JS animations to crafting customized WordPress themes and delivering mid-range Laravel projects. In my previous role, I had the privilege of leading the development of high-end projects shweshops.com and gentlementailor.shop, demonstrating my ability to meet the demands of complex and high-impact web development. Furthermore, I have recently added Node.js and React.js to my skill set, along with SEO expertise and hands-on experience in server security, maintenance, and performance optimization, enabling me to deliver modern, efficient, and feature-rich web applications.

WORK EXPERIENCE

Software Engineer/ Search Engine Optimize excutive (messaraliving UAE) 2025- present.

As a Software Engineer at Messara Living (Sharjah, UAE), I managed websites with WordPress, WooCommerce, Laravel, React.js, and Vue.js. I optimized SEO, speed, and mobile design, integrated Google Analytics and Ads tracking, and handled e-commerce catalogs, payments, and server deployments. I also ensured security, backups, and troubleshooting, supporting digital campaigns that increased online sales.
